WORK EXPERIENCE

Griggs Specialist Hospital, Lagos

Staff Nurse

- Provided patient care, including administering medication and monitoring vital signs.
- Assisted doctors in medical procedures and ensured patient comfort.
- Educated patients and families on post-treatment care and health management.
- Maintained accurate patient records and collaborated with healthcare teams.

CLINICAL EXPERIENCE

- Accident & Emergency Ward (A&E): Provided immediate care for trauma and emergency cases, assessed patients, stabilized critical conditions, and ensured timely interventions in collaboration with emergency medical teams.
- Medical Ward: Supported the care of adult patients with a wide range of medical conditions such as diabetes, hypertension, and chronic diseases. Assisted in patient assessment, administration of medication, and health education.
- Labour Ward: Assisted in the care of expectant mothers during labor, including monitoring fetal heart rates, administering medications, assisting in deliveries, and providing post-delivery care for both mother and baby.
- Postnatal Ward: Monitored the recovery of mothers post-delivery, including vital signs, wound care, and breastfeeding education.
- Pediatric Surgical Ward: Assisted in caring for pediatric patients undergoing surgeries, administering medications, and providing emotional support for children and their families.
